

Area 56 District Boundaries

Introduction –

This is my interpretation of the Area 56 districts as derived from information gathered from the last redistricting from the late 1980's and in consideration of the borders of the Area as limited by county lines, not roads or rivers.

In all cases, I attempted to describe the district boundary by starting at the southwest corner of the district and then describing the borders in a clockwise fashion to completion. I attempted to be frugal with words, and consistent with terms and abbreviations.

As this description is not consistent with the last known area approved definitions, they would need approval prior to publication. ***(Any geographical variations from the last known approved definition is notated in this manner)***
